

## PATRIK DK PRISLISTE 2024 RACE SEJL:

**RACE - LA:** Building upon the exceptional speed of the Race +, we've implemented the following enhancements:

- Steeper batten angles for improved twist and heightened stability, resulting in better control.
- Slightly wider panels between the battens above and below the boom to counterbalance any power loss due to the steeper battens.
- Overall wider sleeve for a more efficient profile and a softer structural feel, enhancing breathability (see picture).
- Increased sleeve width at the top to offset any power loss resulting from the increased width of the overall sleeve.
- Lighter construction, contributing to an overall boost in performance.
- Front placement of the top 3 batten tensioner, reducing swing weight at the rear.
- Refreshed corporate identity graphic update.

LA	Estimated specs				
Size	Luff	Mast	Ext	Boom	Pris
4,6	TBC	360	TBC	TBC	9.449 kr.
5,2	419	380	39	171	9.749 kr.
5,8	435	400	35	185	9.999 kr.
6,4	451	420	31	197	10.599 kr.

**RACE - MA:** Building on the impressive stability of the Race SF, we've introduced the following enhancements:

- Steeper batten angles, improving twist and stability for heightened control.
- Slightly wider panels between the battens above and below the boom, offsetting any power loss resulting from the steeper battens.
- Expanded overall sleeve width, facilitating a more efficient profile and a softer structural feel for enhanced breathability (see picture).
- Increased sleeve width at the top, compensating for any power loss due to the overall widened sleeve.
- Lighter construction for an overall performance enhancement.

-Front placement of the top 3 batten tensioner, reducing weight shift at the back.

-Fresh corporate identity graphic update.

MA	Estimated specs				
Size	Luff	Mast	Ext	Boom	Pris
5.0	415	380	35	167	9.359 kr.
5,6	431	400	31	175	9.749 kr.
6,2	451	420	31	85	10,099 kr.
6,8	469	440	29	191	10.499 kr.
7,4	489	460	29	197	10.799 kr.
8.0	511	480	31	201	10.999 kr.
8,6	539	500	39	205	11.199 kr.

**RACE - HA:** Proven as one of the fastest and most stable foil racing sails on the PWA course, the Race S2 laid the groundwork for the Race - High Aspect, where we implemented the following modifications:

Higher aspect ratio, reducing back-hand power and minimizing back-foot pressure for a smoother and more controlled flight (minimizing vertical movement).

Simultaneously, the increased sail height provides greater leverage for improved performance in light winds

-Lower foot placement to balance the heightened sail, strategically positioned to prevent interference with the foot straps.

-Steeper batten angles for enhanced twist and stability, contributing to superior control.

-Expanded sleeve width at the top, compensating for any power loss due to the overall increased sleeve width.

-Lighter construction, enhancing overall performance.

-Front placement of the top 3 batten tensioner, reducing weight shift at the back.

-Updated corporate identity graphic.

HA	Estimated specs					
	Size	Luff	Mast	Ext	Boom	Pris
	3,5	347	340	7	145	8.999 kr.
	4	369	360	9	153	9.199 kr.
	4,5	391	380	11	159	9.399 kr.
	5	413	400	13	169	9.599 kr.
	5,6	435	420	15	175	9.699 kr.
	6,2	457	440	17	183	9.999 kr.
	6,8	483	460	23	191	10.199 kr.
	7,4	509	480	29	197	10.599 kr.
	8	539	500	39	203	10.899 kr.
	8,5	551	520	31	211	11.199 kr.
	9	565	520	45	219	10.599 kr.
	10	595	550	35	231	11.999 kr.

Inkl DK moms.

**LA = Low aspect**

**MA = Medium aspect**

**HA = High aspect**
